

## Vaccination Policy

### 1 Purpose

As parents we make many decisions for the health and welfare of our children. Making sure that children of all ages receive all vaccinations on time is one of the most important things that can be done to ensure children's long-term health as well as the health of friends, classmates, and others in the community.

Immunization is the best way to protect your child from harmful, sometimes fatal diseases. Students in TSPS are required to be vaccinated before they can enter school. We encourage parents to make sure that their child is up-to-date on all immunizations.

### 2 Scope

The Sheffield Private School Health Care Department provides vaccination for students for Y1 to Y13 (School Immunization Program), which is mandatory as per The Dubai Health Authority.

We request parents to do timely updates to school clinic whenever TSPS students receive any regular/optional vaccination other than school records.

If you need further assistance or any questions related to vaccinations, please do not hesitate to contact the school clinic.
